Baltimore Lock Hospital.
DR. JOHNSTON.

Physician of this celebrated Institution, has Discovered the most Certain, Speedy, Pleasant and Effectual Remedy in the World for all

DISEASES OF IMPRUDENCE.

Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the Victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or Young Men contemplating marriage, aware of Physical Weakness (Loss of Procreative Power—Impotency,) Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.

He who places himself under the care of Dr. J., may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS, IMPOTENCY, LOSS OF POWER,
Immediately Cured and Full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits, than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE WARRANTED IN TWO DAYS.
Relief in Six Hours! No Mercury!

Persons Ruined by Ignorant, Trifling Pretenders and their Deadly Poisons, should apply immediately.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN

who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskillful PRETENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being restored to a renewal of Life, Vigor and Happiness, in despair leave him with ruined Health to sigh over his galling disappointment.

To such, therefore, Dr. JOHNSTON pledges himself to preserve the most inviolable Secrecy, and from his extensive practice and observations in the great Hospitals of Europe and the first in this country, viz: England, France, Philadelphia and elsewhere, is enabled to offer the most Certain, Speedy and Effectual Remedy in the World for all Diseases of Imprudence.

DR. JOHNSTON,
OFFICE No. 7 S. FREDERICK STREET

left hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

No letters received unless post-paid and containing a stamp to be used on the reply. Persons writing should state age, and send a portion of advertisement describing symptoms.

There are so many Paltry, Designing and Worthless Impostors advertising themselves as Physicians, trifling with and ruining the health of all who unfortunately fall into their power, that Dr. Johnston deems it necessary to say especially to those unacquainted with his reputation that his credentials or Diplomas always hang in his office.

ENDORSEMENT OF THE PRESS.

The many thousands cured at this Establishment, year after year, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the representatives of the press and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is sufficient guarantee to the afflicted.

KISSINGER & CO.,

No. 2 WEST MARKET STREET, YORK, PA.,
AGENTS AND DEALERS IN
PIANOS, CABINET ORGANS, MELODEONS
AND ALL KINDS OF
MUSICAL INSTRUMENTS,
respectfully inform the public that they are prepared to furnish Pianos of the following manufacture or of any other make that may be preferred:

Albright, Reikes & Schmidt, Chickering & Son, Bradbury, Knabe & Son, Gale & Son,

ESTEY'S CELEBRATED
COTTAGE, HARMONIC AND BOUDOIR
ORGANS AND MELODEONS.

These Instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All Instruments warranted for five years.
BRASS BANDS supplied with instruments and music at reasonable terms.
A liberal discount allowed for Churches and Sabbath Schools.
Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

STILL AHEAD!
HOFFHEINS' REAPER AND MOWER,
One of the Greatest Machines of the Age,

IS superior to any other Machine now in use, and will excel any that will ever be introduced, having been thoroughly tried and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves. This Machine is noted particularly to excel all other machines in strength, durability, ease of draft, and reliability of work, in all kinds of grass and grain. It cuts lodged grain admirably, which is a great item in Machines to a farmer. It can be used as a hand rake as well as a self-raker. It cuts 5 feet 2 inches in grain; 4 feet 10 inches in grass; has a steel cutter bar, with wrought iron guards; it can be used as a Single Mower as well as a Combined Machine.

A full trial of the Machine can be had.

Also, SHIREMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known BRANT RAKE, the best rakes ever introduced.

We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought iron frame, very light and strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made.

Also, THE KEELER AND EXCELSIOR FANNING MILL, the old Bamborough Fan improved, for many years a great favorite among the farmers of Pennsylvania. It is large and strong, has two cockle screens, and warranted to work perfectly.

Also all kinds of FARMING IMPLEMENTS always on hand.

Any person wishing to examine these machines can see them at the Battle-field Hotel, or at my residence, 3 miles from Gettysburg, between the Taneytown road and the Baltimore pike.

THE CRIMINAL WITNESS.

In the spring of 1861 I was called to Jackson, Alabama, to attend court, having been engaged to defend a young man who had been accused of robbing the mail. I arrived early in the morning, and immediately had a long conference with my client. The stolen mail bags had been recovered, as well as letters from which money had been rifled. These letters were given me for examination, and I returned them to the prosecuting attorney. Having got through my private preliminaries about noon, and as the case would not come off before the next day, I went into court to see what was going on.

The first case that came up was one of theft, and the prisoner was a young girl, not more than seventeen years of age, named Elizabeth Madworth. She was very pretty, and bore that mild, innocent look which you seldom find in a culprit. She had been weeping profusely, but as she found so many eyes upon her, she became too frightened to weep more.

The complaint against her set forth that she had stolen a hundred dollars from Mrs. Naseby, and as the case went on, I found that Mrs. Naseby, a wealthy widow living in the town, was the girl's mistress. The poor girl declared her innocence in the wildest terms; but circumstances were hard against her. A hundred dollars in bank notes had been stolen from her mistress' room, and she was the only one who had access there.

At this juncture, when the mistress was upon the stand, a young man caught me by the arm. He was a fine looking young man, and big tears stood in his eyes.

"They tell me you are a good lawyer," he whispered.

"I am a lawyer," I answered.

"Then do save her. You certainly can do it, for she is innocent."

"Is she your sister?"

"No, sir," he added, "but—but"—here he hesitated.

"Has she any counsel?" I asked.

"None that's good for anything; nobody that'll do anything for her. Oh, save her! and I'll give you all I've got. I cannot give you much, but I can raise something."

I reflected a moment. I cast my eyes toward the prisoner, and she was at that moment looking at me. She caught my eye, and the volume of humble entreaty I read in her glance resolved me in a moment.

I arose and went to the girl, and asked her if she wished me to defend her. She said yes. I then informed the court that I was ready to enter into the case, and the murmur of satisfaction that ran quickly through the room told where the sympathies of the people were. I asked for a moment's cessation, that I might speak with my client. I went and sat down by her side, and asked her to state candidly the case. She told me that she had lived with Mrs. Naseby two years, and had never had any trouble before. About two weeks ago, she said, her mistress lost a hundred dollars.

"She missed it from her drawer," the girl said to me, "and asked me about it. I said I knew nothing about it. That Nancy Luther told Mrs. Naseby that she saw me take the money from the drawer—that she watched me from the keyhole. They went to my trunk and found twenty-five dollars of the missing money there. But, sir, I never took it, and somebody must have put it there."

I then asked her if she suspected any one.

"I don't know," she said, "who could have done it but Nancy. She has never liked me, because she thought I was better treated than she. She is the cook. I was the chambermaid."

She pointed Nancy Luther out to me. She was a stout, bold-faced girl, somewhere about twenty-five years old, with a low forehead, pug nose, small grey eyes, and thick lips. I caught her glance at once, as it rested upon the fair young prisoner, and the moment I detected the look of hatred which I saw there, I was convinced that she was the rogue.

"Nancy Luther did you say that girl's name was?" I asked, for a new light had broken in upon me.

"Yes, sir."

I left the court room and went to the prosecuting attorney and asked him for the letters I had handed him—the ones that had been stolen from the mail-bag. He gave them to me, and having selected one, I returned the rest, and told him I would see he had the one I kept before night. I then returned to the court room and the case went on.

Mrs. Naseby resumed her testimony. She said she entrusted the room to the prisoner's care, and that no one had access there save herself. Then she described about the missing money, and closed by telling how she had found twenty-five dollars in the prisoner's trunk.

She could swear it was the identical money she had lost, in two tens and a five dollar note.

"Mrs. Naseby," said I, "when you first missed the money, had you any reason to believe that the prisoner had taken it?"

"No, sir."

"Had you ever before detected her in any dishonesty?"

"No, sir."

"Should you have thought of searching her trunk had not Nancy Luther advised and informed you?"

"No, sir."

Mrs. Naseby left the stand, and Nancy Luther took her place. She came up with a bold look, and upon me she cast a defiant look, as much as to say, "trap me if you can." She gave her evidence as follows:

She said that on the night the money was taken she saw the prisoner going up stairs, and from the sly manner in which she went up she suspected all was not right. She followed her up. "Elizabeth went to Mrs. Naseby's room and shut the door after her. I stooped down and looked through the keyhole, saw her take out money and put it in her pocket. Then she stooped down and picked up the lamp, and as I saw that she was coming out I hurried away."

I called Mrs. Naseby to the stand.

"You say that no one save yourself and the prisoner had access to your room," I said. "Now could Nancy Luther have entered the room if she wished?"

"Certainly, sir; I mean that no one else had any right there."

I saw that Mrs. Naseby, though naturally a hard woman, was somewhat moved by poor Elizabeth's misery.

"Could the cook have known by any means in your knowledge where the money was?"

"Yes, sir; for she often came to my room while I was there, and I have often given her money to buy provisions of market men who happened to come along with their wagons."

"One more question. Have you known of the prisoner having used any money since this was stolen?"

"No, sir."

I now called Nancy Luther back, and she began to tremble a little, though her look was as bold and defiant as ever.

"Miss Luther," I said, "why did you not inform your mistress of what you had seen without waiting for her to ask about the lost money?"

"Because I could not at once make up my mind to expose the poor girl."

"You say you looked through the keyhole and saw her take the money?"

"Yes, sir."

"Where did she place the lamp when she did so?"

"On the bureau."

"In your testimony you said she stooped down when she picked it up. What do you mean by that?"

The girl hesitated, and finally she said she did not mean anything, only that she picked up the lamp.

"Very well," said I, "how long have you been with Mrs. Naseby?"

"Not quite a year, sir."

"How much does she pay you a week."

"A dollar and three quarters."

"Have you taken any of your pay since you have been here?"

"Yes, sir."

"How much?"

"I don't know."

"Why don't you know?"

"How should I? I have taken it at different times, just as I wanted it, and kept no account."

"Now, if you had wished to harm the prisoner, could you have raised twenty-five dollars to put in her trunk?"

"No, sir," she replied with indignation.

"Then you have not laid up any money since you have been here?"

"No, sir; only what Mrs. Naseby may owe me."

"Then you did not have any twenty-five dollars when you went there?"

"No, sir, and what's more, the money found in the girl's trunk was the money Mrs. Naseby lost. You might have known that if you'd remembered what you asked her."

This was said very sarcastically, and intended for a crusher upon the idea that she should have put the money in the prisoner's trunk. However I was not overcome entirely.

"Will you tell me if you belong to this State?"

"I do."

"In what town?"

She hesitated for an instant; the bold look forsook her. But she finally answered.

"I belong to Sumers, Montgomery county."

I next turned to Mrs. Naseby.

"Do you ever take a receipt from your girls when you pay them?"

"Always."

"Can you send and get one of them for me?"

"She has told you the truth, sir, about the payment," said Mrs. Naseby.

"Oh, I don't doubt it," I replied; "particular proof is the thing for the court room. So if you can, I wish you would produce the receipt."

She said she would willingly go if the court said so. And the court said so, and so she went. Her dwelling was not far off, and she soon returned and handed me four receipts, which I took and examined. They were signed in a strange, staggering hand by the witness.

"Now, Nancy Luther," I said, turning to the witness and speaking in a quick, startling tone, at the same time looking her sternly in the eye, "please tell the court, the jury and me, where you got the seventy-five dollars you sent in your letter to your sister in Sumers."

The witness started as though a volcano had burst at her feet. Then turning pale as death, every limb shook violently. I waited till the people could have an opportunity to see her emotions, and then I repeated the question.

"I—never—sent any," she gasped.

"You did!" I thundered, for I was excited now.

"I—didn't," she faintly muttered, grasping the railing at her side for support.

"May it please your honor, and gentlemen of the jury," I said, as soon as I had looked the witness in the countenance, "I am here to defend a man who was arrested for robbing the mail, and in my preliminary examination had access to the letters which had been torn open and robbed of money. When I entered upon this case, and heard the name of this witness, I went out and got this letter which I now hold, for I remembered having seen one bearing the signature of Nancy Luther. This letter was taken from the mail bag, and it contained seventy-five dollars, and by looking at the post-mark you will observe that it was mailed the day after the hundred dollars were taken from Mrs. Naseby's drawer. I will read it for you if you please."

The court nodded assent, and I read the following, which was without date, save that made by the postmaster upon the outside. I give it *verbatim*:

"SISTER DORCUS:—I send yu here seventy-five dollars which I want yu to kepe for me till I cum hum, I can't kepe it cos im afeered it will git stole don't speak won word ta liven soul about this don't want nobody to know ive got enny money you won't now wil yu. I am fast rate only that gude fur nothing lis madworth is here yit—but I hope to get over now—you know I rote yu about her, give my love to all enquirin' friends. This from your sister till deth. NANCY LUTHER."

"Now, your honor," said I, as I gave him the letter, "it is directed to Dorcus Luther, Sumers, Montgomery county. And you will observe that one hand wrote the letter that signed the receipts, and the jury will so observe. And now I will only add how it was disposed of. Seventy-five dollars were sent off for safe keeping, while the remaining twenty-five were placed in the prisoner's trunk to cover the real criminal. Of the tone of parts of the letter you must judge. I now leave my client's case in your hands."

The case was given to the jury immediately following their examination of the letter. They had heard from the witness's own mouth that she had no money of her own, and without leaving their seats they returned a verdict of "Not Guilty."

I will not describe the scene that followed; but if Nancy Luther had not been arrested for theft, she would have been obliged to seek protection of the officers, or the excited people would have mobbed her, at least, if they had not done more. The next morning I received a note handsomely written, and in it I was told that the within was but a slight token of the gratitude due me for the effort in behalf of the poor defenceless maiden. It was signed by "Several Citizens," and contained one hundred dollars. Shortly afterwards the youth who had first begged me to take up the case called upon me with all the money he could raise, but I showed him that I had already been paid, and refused his hard earnings. Before I left town I was a guest at his wedding—my fair client being the happy bride.

A MODERN PRINCE OF INDUSTRIALISM.—The Germans, too, have their Vanderbilt, though he is a man of a somewhat different genius from the New Yorker. His name is Dr. Strousberg, and he lives at Berlin. He is of Jewish origin, a civil engineer by profession, and was only a few years ago as poor a devil as ever worked in an engineer's office at seventy or eighty dollars a month. Now he is worth between eighteen and twenty million Prussian thalers. He gained his wealth by fortunate enterprises of the most gigantic dimensions. He purchased the ramparts of the fortress of Antwerp, in Holland, and changed them into residences and public establishments. He builds railroads and canals for various Governments and takes a hand in every great speculation of that character. During the past three winter months he fed all the poor of the city of Berlin, and furnished them with fuel. A few days ago he celebrated his silver wedding. Among the gifts which this enterprising man received from friends, there was a magnificent parlor railroad car, presented to him by the united engineers of Berlin. It was built at a cost of $11,000. One of his contractors gave him a new and luxuriously furnished steamboat, for pleasure trips on the *Spree*; the administration of the silver mines, at Dartmund, two statues of massive silver representing miners in their holiday costumes in half life size, and a number of other magnificent presents.

A GOOD BORROWER.—Mrs. H., exclaimed a little urchin, on running into a near neighbor's house, mother wanted me to ask, would ye please lend'er your candlemoulds?

The moulds were given him, and he ran home. In a few moments he returned with this query:

Mother wants to know if ye'd be kind enough to lend'er some wickin?

The wicking was measured off, and he again departed. But he soon appeared again and said:

Mother would be so thankful if you had a little tallow ye'd be so kind as to lend her.

Mrs. H., good naturedly, produced the desired article, and as the boy started for the door, she said:

Wouldn't your mother like to have me come over and mould the candles for her?

Wal, yis, replied the boy. I reckon she'd like it fast rate, cos she sed she didn't understand it very well, but she don't like to be troublin' her neighbors, so she wouldn't ask ye.

PRINCE ALFRED'S TIGER HUNT.—The Duke of Edinburgh, Prince Alfred, is in India, enjoying himself in regal style. Lately, a tiger hunt was planned for his entertainment.

"There were upward of 350 hunting elephants in the field; a tiger was soon started out of the jungle, and by masterly management was so hemmed in by the elephants that at last these formed a complete circle of not more than sixty yards diameter, with only the Prince, Sir Jung Bahadoor, and the tiger in the central space.

"When the latter realized his situation, he ran roaring round and round the circle trying to find an exit, and at last made a rush at what seemed probably the weakest point in the circle. This, however, was just in front of the Duke's elephant, and a well-directed shot from his Royal Highness rolled him over, though it took two or three more balls to finish him."

LUCK AND LABOR.—Many people complain of their bad luck when they ought to blame their own want of wisdom and action. Cobden, a distinguished writer, in England, thus wrote about luck and labor:

Luck is ever waiting for something to turn up. Labor, with keen eyes and strong will, turns up something.

Luck lies in bed, and wishes the postman would bring him the news of a legacy. Labor turns out at six o'clock, and with busy pen, or ringing hammer, lays the foundation of a competence.

Luck whines. Labor whistles.

Luck relies on chances. Labor on character.

Luck slips down to indigence. Labor strides upward to independence.

A WOMAN in Missouri hung herself because her husband went to California. Next week a dozen more started, but their wives would not hang worth a cent, and the poor, disconsolate devils have all returned broken hearted.

A NEW AND STRANGE SECT.

Macopin, Passaic county, New Jersey, has been excited lately over a new sect, called "Jehovah's Band." The *Newark Courier* thus describes it:

"Their form of worship develops itself in pulling, blowing, whistling, shouting, jumping, wrestling, falling to the floor, and rolling over and kicking. Both women and men engage in the exercises. Baptism is by immersion in the village mill pond, in the dead hour of the night. On Sunday they hold continuous service, and take a recess for meals only, refusing to read a newspaper, or even to receive a letter on that day. John Rhinesmith, a wealthy and well to-do farmer of the neighborhood, is the chief man of the band, and recently had his house rebuilt especially to accommodate the brethren; one room resting on strong beams, stands the jumping; but about a month ago an ardent member, in a paroxysm of fanaticism, declared that he felt as light as air, and even though he jumped upon a looking-glass he would not so much as bruise it with a scratch; whereupon he began to leap upon the stove-hearth, and broke it off, and then leaping on the top broke in the frail covers, and finally smashed a big rocking chair, before he subsided. Recently Rhinesmith baptized Mr. Gilbert B. Speaker, a man of family and a convert to the new faith, the baptism taking place in Rhinesmith's mill pond, before the members of the band and amid shouts and cries, the whole gang at one time shouting 'fire,' to the alarm of the whole neighborhood, it being then after midnight. The society numbers about 500 members."

PRIVILEGES OF STOCKHOLDERS.—Two gentlemen were chatting on the Boulevard; one was a great speculator, developing the plan of a magnificent project, the other a dazzled capitalist, ready to snap at the bait. He hesitated a little, but was just yielding, merely making a few objections for conscience sake. Near these two passed a couple of youngsters of twelve years. They were looking into a tobacco shop close by, and one cried out to the other:

"By the piper! I'd like to smoke a sou's worth of tobacco."

"Well," said the other, "buy a sou's worth."

"Hold on! I've got two sous."

"That's the ticket! just the thing! one for the pipe and one for the tobacco."

"Oh, yes; but what am I to do?"

"You? Oh! you shall be stockholder; you can spit."

It was a flash of light. The capitalist thrust his hands into his pockets and fled. The speculator cast a furious look at the urchins and turned down the street.—*Paris Letter.*

COULDN'T SEE THE NEED.—A worthy gentleman who rules the rising generation of boys in a certain town in Tennessee, had occasion recently to correct a little boy named Johnny. Now, Johnny had what is called the sulks, because he was whipped, and in order to convince him that he was justly and necessarily punished, his teacher had recourse to the following argument:

"Well, Johnny, suppose you were riding a big horse to water, and had a keen switch in your hand, and all at once the horse were to stop and refuse to go further, what would you do?"

Johnny stifled his sobs for a moment, and looking up through his tears, innocently replied: "I'd cluck to him, sir."

"But, Johnny, suppose he wouldn't go at clucking, what then?"

"I'd get down and lead him, sir."

"And what if he were obstinate, and would not let you lead him?"

"Why, I'd take off his bridle and turn him loose, and walk home, sir."

"You may take your seat, Johnny." Johnny couldn't be made to see the necessity for using the switch.

A FRENCHMAN, resolved to be rid of life, went, a little before high tide, to a post set up by the sea-side. He had provided himself with a ladder, a rope, a pistol, a bundle of matches, and a vial of poison. Ascending the ladder, he tied one end of the rope to the post, set his clothes on fire, put the muzzle of the pistol to his head, and kicked away the ladder. In kicking away the ladder, he sloped the pistol so that the ball missed his head, and cut through the rope by which he was suspended; he fell into the sea, thus extinguishing the flames of his clothes; and the sea water which he involuntarily swallowed, counteracted the poison; and thus, in spite of his precautions, he remained unhanged, unshot, unpoisoned, unburned, and undrowned.

A FRENCH paper says that some workmen engaged in demolishing an old house in Paris, came upon a nest of adders containing some hundreds of these reptiles, at the bottom an exhausted well. In the midst of this snake nest was found a skeleton, which had probably fallen into the well years ago, and the flesh of which had been devoured by the adders. Strange to say, in the hand of the skeleton was a pocket book of red morocco leather, in which, when opened, there were found forty bank notes for 1,000f. each, a woman's likeness, and a letter which had been almost entirely eaten by the reptiles, the only fragment remaining decipherable bearing the words, "Do not make known the plot." A judicial inquiry had been commenced.

THE Salem *Observer* denies the statement recently circulated, that Mr. Peabody left only $150,000, after the payment of his public bequest to the London poor. That sum represents only the personal property he left in Essex county. The greater portion of his property was left in England, where his will was originally proved in December last, and where the administration of the estate is principally to be carried on for the present. The amount of personal property returned to the court in England is about four hundred thousand pounds, not far from two and a quarter millions of dollars in currency. The whole amount in this country is not yet made public.

CICERO has said of men: "They are like old wines, age sours the bad and betters the good."

A GREAT RACE.

The *Evening News*, of Gold Hill, Nevada, contains the subjoined account of a great race against time, on the Carson City Course, by Johnny Faylor, for a stake of $1,000 or $500 to $5,000 that he could ride fifty miles in two hours:

"At just 12 o'clock Faylor made his appearance, mounted and ready for the fray. He is a light-built, dark-complexioned young man, and weighs 118 pounds. After a few minutes' preliminary arranging of details, away he dashed on the first heat. We have never seen a better rider. Perfectly erect and steady, he rode firmly in his stirrups, and seemed no impending weight for a horse to carry, but on the contrary, light, lively, and any thing but a dead weight. Johnny knows how to ride, that's certain. We did not time the heats separately, as that would be too lengthy a matter for publication, but the shortest was made in two minutes and two seconds; the average was about two minutes and eight seconds. Some of the horses he rode twice round, at a single heat, and one three times; most of them, however, he rode only once round. At the farther side of the track, in the vicinity of the half-mile pole, he had fresh horses also waiting, and had to change at that point on two or three occasions. When coming in on the home stretch, if the horse he rode was observed to be failing, a fresh horse was taken out to meet him, and exchanged; this was also done two or three times. One very interesting feature to notice was the extreme rapidity and facility with which he changed horses at the stand. A fresh one ready saddled and bridled was held there, and when he rode up two or three men would seize his horse and assist him to leap down and into the saddle of the other horse, these changes thus occupying far less time than it takes us to write about them. Indeed, the last dozen or twenty heats he was not allowed to touch the ground at all, but was simply picked off of one saddle and placed in the other, with a slap bestowed upon his horse's rump in order to start him off in a hurry. It was a little the liveliest horse navigation most people ever saw. About the twenty-third mile round blood was observed coming from Faylor's mouth and one ear, being subject to bleeding at the lungs on such occasions, under the fearfully severe exercise, but as he kept a "stiff upper lip," and about that time also shouted for some one to get his watch and bet that on the race, we felt assured that he would live through it—and he did. About 2 o'clock, P. M., he finished the race; time, one hour, fifty eight minutes and thirty-three seconds—within two hours. As he rode in from that concluding heat, looking still vigorous, and anything but exhausted, he was taken from the saddle amid loud cheers of triumph, and hilariously carried on the shoulders of his friends to the front of the judges' stand, from which the result was announced immediately. Faylor being called upon for a speech, replied, thanking his friends for their efforts in his behalf, and expressing the hope that he would be as successful in the great race he is to run of 200 miles in ten hours at Jerome Park, New York, in May. Faylor had procured fifteen horses for his race yesterday, but he had to use three more on account of some of them getting lame."

A GENTLEMAN who has passed some time among the Cossacks of the Ukraine tells of some strange customs still prevalent there, one of which may perhaps interest our fair readers. When a young woman in the Ukraine feels a tender passion for a young man, she goes at once to the house of his parents, and says to him, "Pomagai bog," which means, "be you blessed of God." The young woman then sits down and talks to the object of her choice as follows: "The goodness I see written in your countenance is a sufficient assurance to me that you are capable of ruling a loving wife, and your excellent qualities encourage me to hope that you will make a good husband. It is in this belief that I have taken the resolution to come and beg you, with all due humility, to accept me for your spouse." She then addresses the father and mother, and solicits their approval of, and consent to, the marriage. If she meets with a refusal, she refuses to leave the house, and such conduct is usually crowned with success. The parents of the young men never put the maidens away if they still persist in their stay, believing by so doing they would bring down the vengeance of heaven upon their heads.

AT Glenn's Falls, New York, a merchant hired a new clerk, and of course initiated him at once into the mystery of the "cost mark." The same afternoon the newly inducted knight of the yard-stick was showing some goods to a lady customer, when she demurred at the price of the articles. The feelings of the merchant may be imagined when the young man called at the top of his voice: "What shall I sell this for? It is marked $1.50, and cost 59 cents."

A LITTLE cabin boy on board a ship, the captain of which was a religious man, was called up to be flogged for some misdemeanor. Little Jack appeared before the captain weeping bitterly, and, falling upon his knees, he cried, "pray, sir, will you wait until I have said my prayers?"

"Certainly, I will," replied the captain.

"Well, then," said Jack, triumphantly, "I'll say them when I get ashore."

AN African gentleman saw over a grocery store inscribed, "Sugar-cured hams." He entered the place and asked the price. He solicited and obtained permission to smell a shank. Having done this he abruptly turned to leave.

"Don't you want any of that ham?" said the grocer.

"Well, no, boss," was the reply. "De sign reads, 'sugar-cured ham;' dat ar ham's sick yet; my advice to you is to change the medicine."

THARE haint been a bug made yet in vain, nor one that wasn't a good job. Thare iz ever lots of human men loafing about blacksmith shops and cider-mills, all over the country, that don't seem to be necessary for anything but to beg plug tobacco, sware and steal watermellons; but yu let the kolery break out once, and then yu will see the wisdom of having jist sich men laying around—they help count.—*Josh Billings.*

THE GETTYSBURG COMPILER, FRIDAY MORNING, MAY 20, 1870.

Gettysburg Compiler.

FRIDAY, MAY 20, 1870.

"DOWN with the taxes" should be preceded by down with the Radical party.

THE Radicals are now engaged in raising a corruption fund to buy up the Maryland negroes.

IN 1860 white men owned negroes in some of the States in the Union. In 1870 negroes own the white men of the Radical party in all the States.

GEN. JOHN A. LOGAN has been re-elected Commander-in-Chief of the Grand Army of the Republic; a triumph for a champion of Free Trade and a reduction of the army.

THE effort to get up a caucus of "Republican" Senators and Representatives at Washington, has ended in a miserable failure. The anti-tariff men scented the trap that was set for them and prudently declined to step into it.

NEW JERSEY.—A largely attended Democratic mass meeting was held in South Camden on Saturday night week. Resolutions were passed disclaiming all political association with the newly enfranchised "citizens," and pledging renewed adherence to the principles of the Democratic party.

FIFTEENTH AMENDMENT.—The Radicals of the House, on Monday, rushed through, without debate, a stringent bill for the enforcement of the negro voting amendment. The Democrats denounced the uncalled for haste, and demanded debate on a bill of such great importance—but all to no purpose. The negro is still the congressional idol.

THE COST OF RADICAL RULE.—The Washington correspondent of the Phila. Ledger says:

"Amount of the gross collections of Internal Revenue, since the organization of the Bureau in 1862, to the 30th of June next, will be in round numbers, $1,600,000,000. In the year 1866 the largest amount—$310,906,081—was collected."

Only fifteen hundred million dollars of extra taxes paid by the people for the "blessing" of Radical rule! Under Democratic rule not one cent of this immense amount would have been wrung from the people!

IN city and country the Democratic party is a unit in opposition to the fraudulent and infamous Fifteenth Amendment. There is not a break in the line. No Democrat is absent from his post. All are ready for the contest to again make this a white man's country, a white man's government, and an inheritance fit for the children of white men. The attempt of the Radicals to make the question appear a settled one, and thus prevent the serious defection in their ranks which is now taking away from them thousands of voters, who, although they are Republicans, are white Republicans, has utterly failed. The contest will go on until right again is throned supreme over force and fraud, and the country ruled by the race who raised it from a few weak colonies to an Empire of population, wealth and renown.

THE negro vote will not be an element in the next contest so far as the Democracy is concerned. They will not put men on their tickets to propitiate the "new citizens," or recognize them in any way in their conventions. The old path of duty will be followed, the intelligence of the white masses appealed to, honest men nominated for all positions, and the column pushed on by reason, facts and arguments, showing the inevitable result of allowing the Radical party to remain in power, either in the nation or the State. And this will be the action of the party in all portions of the Union. Connecticut was redeemed after the proclamation of the Fifteenth Amendment, and in all sections of the West the white man's ticket has been successful in the late elections. Let the political atmosphere be made red-hot, everywhere, for the authors of the Fifteenth Amendment fraud.

PERFECT EQUALITY.—Mr. Sumner, on Friday last, introduced a bill in the Senate supplemental to the civil rights bill, which he considers the "crowning glory of his anti-slavery record." It provides in effect for absolute equality of all persons in the enjoyment of all kinds of privileges, without distinction on account of race or color. It requires all hotels, restaurants, railroads, theatres, churches, concert halls, academies, common schools, colleges, etc., to treat all alike, and imposes penalties, punishable on conviction in a United States court, for any refusal of any privilege to any one on account of he or she being of African descent. The bill is so sweeping that it prohibits cemeteries even from being devoted to the sepulture exclusively of white people or colored people. The bill was referred to the judiciary committee, from which its author hoped it would soon be reported and passed into a law.

If the white people of this country do not soon awake to a true sense of their position, the Radical leaders will bind them hand and foot, and make the negroes "masters of the situation."

AMNESTY.—The United States Senate, says a correspondent of the Baltimore Sun, was, on Tuesday, the scene of quite an excited debate, which showed a wide division among some of the Republican Senators, on the question of general amnesty. Mr. Ferry, one of the Republican Senators from Connecticut, who has been, from the last Congress, a supporter of a bill to remove all political disabilities, led off in the discussion in a very conservative speech, during which he declared that the fifteenth amendment was a delusion and a snare while these disabilities remain unremoved. Mr. Morton, of Indiana, replied in a fierce strain, declared that Mr. Ferry had made a Democratic speech of an ultra character, and that if general amnesty were inaugurated Jeff. Davis would again be a Senator from Mississippi, and that John C. Breckinridge would even be sent here as the successor of Garrett Davis. Mr. Warner, of Alabama, ventured an interjection that the success of the Republican party in Mississippi did not depend whether Jeff. Davis remained unpardoned or not, to which Mr. Morton replied with great bitterness that if all the white people in Alabama were enfranchised Mr. Warner would never be returned to the seat he now held. Mr. Sawyer, of South Carolina, also made a conservative speech in favor of a liberal policy, to which Mr. Drake replied. Altogether the discussion was one of the warmest of the session, and shows that a new conservative element in the Senate is gaining ground.

THE McFARLAND CASE.

Out of the tedious details of the McFarland case useful lessons can be extracted. The verdict ought to strike every libertine with terror. It is rendered certain that in no part of this country can a jury be empannelled which will convict of murder the man who slays the seducer of his wife. It is vain to urge the sacredness of human life, vain to portray the enormity of assassination, vain to plead the unpardonable nature of murder done under such circumstances. The Sickles and Cole cases established a precedent which the verdict just rendered in the case of McFarland has confirmed. Under the plea of insanity or frenzy, no matter how feebly it may be sustained, the man who kills the seducer of his wife will be acquitted. In vain may lawyers and casuists argue that such action on the part of jurors is wrong. They may prove their position to the satisfaction of outsiders, but jurymen will always take the side of the injured husband, and conviction is simply out of the question. One or more of a pannel may withstand the influence of the prevailing sentiment, and be proof against all sympathy with the general feeling of indignation which is universally excited, but more than enough will always be found ready to prevent punishment. That is the fact, and it cannot be argued down or set aside. Proper or improper, there it stands, and it will surely be maintained. Let all free lovers take warning; let those who are disposed to disregard the sacredness of the marriage tie lay the lesson to heart; let the man who would gratify his base passions at the expense of a husband's honor remember that by so doing he puts himself beyond the pale of the law's protection, and places himself in a position in which he may be slain like a wild beast. This is one of the teachings of the McFarland trial.

But the case furnishes another instructive lesson—and it is so well stated by the Lancaster *Intelligencer* that we adopt its language: The statement made by Mrs. McFarland, taking it to be all true, does not furnish a vindication of her action. Granting that the conduct of her husband was as brutal as she declares it to have been, and that it fully justified her in separating from him; but who will pretend to excuse her engagement to marry Richardson, made, as she confesses it was, before she had even quitted the roof under which she and McFarland were dwelling together? This she does not attempt to deny or conceal. In her defence she publishes a letter written to her by Richardson, under date of March, 1867, while she was still the lawful wife of McFarland, and before the first step had been taken to procure a divorce, which shows how improper a relation existed between them at that time. The following extract is unmistakably clear in its meaning:

My darling, in all that I am or do, or have or hope for, in life or death, you are irrevocably interwoven. I regret nothing that I have done, save just to the extent that it has affected or marred your happiness. My whole heart, my whole life go out to you. I think I see a happy future, sunny days, loves of children, loves of home, good to others. I know I see a loyalty nothing can shake, a trust that is absolute, a love that is utter and vital.

The mind of Mrs. McFarland had been corrupted by the teachings of the men and women into whose company she had been thrown. She had undoubtedly imbibed the doctrine of free love and natural affinities. Her respect for the sacredness of the marriage tie must have been completely undermined before she could consent to listen to such language. How completely she had strayed from the path of correct morality can be learned from an impassioned paragraph in her published defense. Speaking of Richardson's letter, from which we have quoted, she says:

This letter is the key note of the absolute love and trust in which Mr. Richardson held me for the three years which passed until his death. For the feeling with which I tried to repay his loyalty to me, and the gratitude I felt for the chivalry with which he tried to avert, as far as possible, all the misfortunes which seemed destined to fall on my helpless head, I have no word to speak. But the last sentences of the letter I have just quoted were in my heart always.

All this reduced to plain fact amounts simply to an admission of love making and an engagement to be married to one man while she was the lawful wife of another. Yet this is regarded as perfectly pure and proper by a large circle of people in New England and elsewhere. Thousands of women who habitually read the New York *Tribune*, and find mental aliment in similar sources; who sit under Beecher's ministrations, and take their religious creed from Frothingham, will unite with Mrs. McFarland in holding her conduct to be pure and proper, and in regarding the course of Richardson as chivalrous. The extent to which the poisonous virus of free love has infected the literary circles of New England are shown by the manner in which this case has been spoken of and regarded. In minds which have not been demoralized by such pernicious teachings there can be but one opinion in regard to the matter. The action of Richardson in pressing his love upon Mrs. McFarland was the very reverse of chivalrous; and her acceptance of his proffered affection the very opposite of purity. The passions of the guilty pair may have been kept within bounds, and no greater outrage on morals than Mrs. McFarland owns to have been committed; but still the hideous fact stands confessed, that Richardson undisguisedly made love to her while she was the wife of another, and that, forgetting and trampling under foot the sacred obligations of the marriage tie, she accepted his markedly improper advances. No amount of ill usage from her husband can excuse conduct so inconsistent with pure morality.

This exposure of the tendencies to free love, which have been cropping out in New England for some years, ought to teach the country a salutary lesson. It ought to be sufficient to warn the community against newspapers and publications emanating from tainted sources. If such should be the case, some good may yet come out of the McFarland trial.

THE Radicals made a desperate effort to carry the town of Elkton, Md., the other day. It is the home of the Ex-rebel Post Master General. He went home to vote, and his subordinates rallied all the negroes in the village and marched them to the polls in a body. The result was a complete Democratic victory, many white men who had theretofore voted the Republican ticket refusing to touch it, and voting openly for the Democratic candidates. Straws show how the wind blows.

The White Men of the Empire State Condemn the Fifteenth Amendment Fraud!

60,000 to 75,000 Democratic Majority!

The election in the State of New York, on Tuesday, for Judges of the Supreme Court, resulted in the election of the Democratic candidates by from 60,000 to 75,000!!!

New York city gives 60,000 Democratic majority, and the city of Brooklyn 9,000. In Buffalo the Democrats gain 1,592, and in Troy 1,448!—and so on throughout the State.

HIP! HIP! HURRAH!—THE BALL IS ROLLING!

NEW INTERNAL TAX BILL.—In the House, on Monday, Mr. Schenck, chairman of the Ways and Means Committee, introduced a bill to reduce internal taxation thirty-three millions of dollars. It takes the taxes off nearly everything except fermented liquors, distilled spirits, tobacco, cigars, medicines, perfumery, matches, playing cards, checks, drafts, receipts, commercial bills, official bonds, certificates of stock, of profits, of deposits and incomes. The tax on sales, except on liquor dealers, is abolished, as is also the tax on legacies and successions, gross receipts from railroads, corporations, &c., though the tax on the receipts of theatres, bowling alleys, billiard rooms and lotteries is retained. The income tax is fixed at five per cent., with an exemption of $1,500, but all the inquisitorial features of the tax are abolished and publication of returns prohibited.

The New York *Times* says that the proposed compromise in reference to the income tax will certainly not be acceptable to the people. The rate must be lowered to three per cent., if the tax is to stand.

A NEGRO orator from Washington talked very plainly to the white Radicals of Chambersburg at the celebration of the Fifteenth Amendment. He informed them that the colored voters held the balance of power in Franklin county, and that they would demand a share of the offices. It is likely that they will insist upon being represented both upon the borough and the county tickets. There will be plenty of aspiring darkeys ready to force themselves into positions of honor and profit, and the Radical party cannot consistently decline to recognize their claims. If they believe in the professions they have made, the Republicans must consent to share the spoils of office with the negroes of Pennsylvania. Governor Geary has already appointed one black man to the responsible position of Notary Public in the city of Philadelphia, and there will be many aspirants for political preferment among the negroes throughout the State. The Radical leaders will have their hands full in supplying the numerous new wants of their colored allies.

MRS. LINCOLN.—The National House of Representatives passed a bill to give Mrs. Lincoln a pension of $3,000. It went to the Senate and was referred to the Committee on Pensions; and that committee has made a report against the bill. The report is signed by Senators Edmunds, Tipton, Pratt, Spencer, Howell and McCreary, and takes the ground that President Lincoln's death occurred whilst he was engaged in civil service, and that no pension has heretofore been granted which would warrant the measure now. In addition, it states that Mrs. Lincoln was left an estate of $80,000 or more, and that she ought not to look for further aid from the government.

Radical editors may consider the report rather "copper-headish," but it comes from a majority of their own party friends.

MRS. A. E. LANE, a rather handsome woman of about thirty, is in Washington getting what encouragement she can towards starting a weekly paper in the interests of the working women. It is to oppose woman suffrage and the numerous isms connected therewith. General Butler endorses the project, and has given Mrs. Lane a check for $300. Senator Wilson gives fifty dollars. It is said that Senator Sprague gives $1,000, with liberty to draw upon him "at sight" in case of need. Other Senators and members are giving liberally, and Mrs. Lane will probably go away with a substantial proof of the opposition of Congressmen to woman suffrage.

THE trial of Rev. Dr. Smith before the Presbytery of New York for drinking gin and milk on Sunday, 1st inst., and treating a couple of newspaper reporters to the same beverage, has terminated in the conviction of the Doctor, who was sentenced to be "rebuked" for bringing reproach upon the Church. The "rebuke" was administered by Rev. Mr. Harper. One of the charges against him, that of "leading reporters into temptation," the *Sun* thinks is "good," and adds, what every one acquainted with the reporters for the press knows to be true, "*they never take nothin' in theirn.*"

REVELS TURNED OUT OF A BALTIMORE HOTEL.—We are informed that the negro "Senator" Revels was ordered, on Thursday night week, to leave the Eutaw House, Baltimore, half an hour after he had been given a room by the clerk. The proprietor, who was absent at the moment of the arrival of Revels, as soon as he came in, ordered the negro to leave, which he did without creating any disturbance. The dose is working! Down with the "Fifteenth Amendment!" Up with the White Man's Government!

THE Republican convention of Cambria county nominated Hon. D. J. Morrell for Congress. The minority of the delegates protested against the proceedings of the majority. They afterwards withdrew, held a meeting and declared against the action of the majority of the convention, and in favor of Hon. Samuel Calvin, of Blair county.

HON. C. L. WARD, a prominent citizen of Bradford county, died of apoplexy a few days ago.

—On the 17th ult., in Philadelphia, two drunken fellows resisted and attacked a policeman, and both were shot dead on the spot. A good deal of discussion has been going on in the papers as to the justifiableness of the deed.

Going to Europe.—Col. R. M. Russell, of Hanover, contemplates a trip to Europe, and may leave in a week or two. A pleasant journey and safe return!

TOWN, COUNTY AND SURROUNDING COUNTIES.

I. O. O. F.—The Grand Lodge of Odd Fellows of this State is now in session at Philadelphia. Mr. Wm. K. Gallagher represents "Getty's Lodge."

Struck.—The barn of Mr. Philip Beck, in New Oxford, was struck by lightning a few weeks ago, but not seriously damaged.

Horse Fair.—The Washington County Agricultural Association will have an exhibition of horses on Wednesday, Thursday and Friday of next week.

Thanks.—Dr. A. B. Dill, member of the House from this county, has our thanks for a copy of the General Laws passed by the last Legislature.

For Sale.—The attention of capitalists is directed to the advertisement for the sale of the Littlestown Foundry, in another column.

Adjusted.—It is stated that the students' difficulty with the professors at Dickinson College, about unjust demerit marks, has been adjusted and the boys are at their books again.

Admitted.—We are told that eight persons were admitted to the church, by immersion, at Pfoutz's, on Saturday last. The services were largely attended on Sunday.

Election.—The Littlestown Building Association has elected the following officers for the ensuing year: President, Isaac Staub; Vice President, Levi D. Maus; Secretary, James A. Lefevre; Treasurer, James H. Colehouse; Directors, Henry Rahter, Wm. Kuhns, Simon S. Bishop, Martin Stoffy and J. H. Miller.

Managers Elected.—The stockholders of the Gettysburg Water Company, on Saturday last, elected the following persons Managers for the ensuing year: Geo. W. McClellan, E. B. Buehler, S. R. Russell, Matthew Eichelberger and H. J. Stahle.

The Board organized by re-electing Geo. W. McClellan President and S. R. Russell Secretary and Treasurer.

Grand Lodge Session.—The Grand Lodge of Good Templars of Pennsylvania will hold its next annual session in Gettysburg, on the 14th, 15th, 16th and 17th of June. Fully six hundred representatives are expected to be in attendance—about one-half of them to quarter at the Springs Hotel. Agricultural Hall has been engaged for the sessions of the Lodge.

Accepted.—The Rev. Samuel J. Wilson, D. D., Professor in Allegheny (Pa.) Theological Seminary, has accepted the invitation to address the Literary Societies of Pennsylvania College, at the next Commencement, the latter part of June.

The address before the Alumni of the College will be delivered by William Hay, Esq., of York.

Pastoral.—We learn that the Rev. Mr. Williams, formerly of Tunrytown, has accepted a call from St. John's Lutheran Church, Littlestown, Rev. Mr. Lane having removed.

We were mistaken in saying, in our last, that the Lutheran congregation at Greencastle had extended a call to the Rev. U. J. Ehrehart, of this place. It should have been said to Rev. Mr. Everett, of the Theological Seminary, this place.

Paul Shoppe.—The Shoppe case will come up in the Supreme Court on Monday next, on a writ to review the evidence under the Act recently passed by the Legislature. The Commonwealth insists that the case was closed on the 14th of February last, and was not pending when the act of the Legislature was passed on the 15th, and that the judgment cannot possibly be re-opened now. This is the question which will be argued on Monday.

Chambersburg Street.—The Passenger Railway on Chambersburg street is being well macadamized between the rails. This is as it should be. Now will the turnpike company or the borough, or whomsoever else's duty it may be, go to work and treat the balance of the street to a good "coat" of broken stone also? The condition of that prominent thoroughfare has been disgraceful for months, and should be "abated" without an unnecessary day's delay. Will the town authorities move? With a ten-mill tax they surely ought to be able to do *something* more than scalp the harmless rise in Carlisle street extended.

Class-Day.—The Class-Day Exercises of the present Senior Class of Pennsylvania College will take place, in the College Campus, on Wednesday evening next, at 6 o'clock. The programme will be: Music; Prayer, Prof. Baugher; Class Introductory; Salutatory, Poem, J. A. Himes; Music; History of Class, J. M. Roimensnyder; Music; Prophecy, B. J. Hickman; Farewell Song; Benediction, M. Valentine, D. D.; to be followed by a Promenade Concert. Should the weather prove unfavorable, the programme will be carried out on Thursday evening. The invitation to be present is general, and a large assemblage of ladies and gentlemen may be looked for.

"Class-Day Exercises" in many institutions are assuming almost "Commencement" importance, and such promises to be the case here.

Hayward's Holy Land.—An exhibition of rare merit will be given in Agricultural Hall, this place, on next Tuesday afternoon and evening, the 24th. It comes to us amply endorsed by those well able to judge of such matters, and we trust a large number of our people will visit it.

Scenes in the Life of Christ, carefully copied from the originals, by Leonardo Da Vinci, Titian, Michael Angelo, Corregio, and others; with Landscape Views of Jerusalem, Mount of Olives, Gethsemane, Siloam, Mosque of Omar, the Kedron, the Jordan, Bethlehem, Nazareth, the Valley near Jacob's Well, with views of the Churches of Nativity, and Holy Sepulchre—the latter by Banvard, Roberts and Taylor—all unequalled in truthfulness and brilliancy, and giving a lasting impression of the Lands of the Bible—make up an exhibition of rare beauty and value.

Real Estate is looking up in Chambersburg. A short time since Major Austin sold his fine dwelling, on East Market street, to J. Allison Eyster, Esq., for $10,000.

Last week Chambers McKibbin, Esq., purchased the property on the corner of West Market and Franklin streets of Mrs. Rudabaugh, for $10,600. He intends to make it his future residence. This is one of the most desirable residences in Chambersburg.—*Repository.*

Ladies' Fair at McSherrystown.—A friend communicates the following:

DEAR COMPILER:—As I am aware that you are always glad to have items of interest, I doubt not that you will be pleased to receive some account of the Ladies' Fair at McSherrystown.

The Fair opened on Monday, May 2d, and, notwithstanding the beautiful display of articles which were to be disposed of, and the still more beautiful bevy of "ladies fair" who were to be instrumental in their disposition, many of the sincere well-wishers of the Fair were fearful that, owing to the great scarcity of money and the threatened inclemency of the weather, the results would not be gratifying. However, all went to work with that determined ardor which knows no such word as fail, and the fruit of their efforts proves that their labors were not in vain. There were three tables, the Conowago and McSherrystown fancy-tables and the Refreshment table. The net profits of the first were $430, of the second $320, and of the third $300, besides $80 realized from the sale of tickets of admission, making a total of $1,130. All praise is due to the ladies and gentlemen who managed the Fair for their industry and perseverance, and to the kind patrons of the Fair for their generosity and liberality. While it has been the source of much innocent recreation, the Fair will in its results be very beneficial to the good Sisters for whom it was intended. E**K.

—We understand that the proceeds of the Fair are to go to the fund for the enlargement of the Academy edifice, it being in contemplation to raise it two full stories, making the building four-story, and otherwise greatly improving it. When completed, St. Joseph's will take rank as one of the largest institutions of its class in the State, as it has long been one of the best.

The Census of 1870—How it Will Be Taken.—The work of taking the ninth United States census will commence on the first of June, under the provisions of the Act of May 23, 1850, and the United States Marshal of each district will designate deputies to perform certain proportions of the work. The assistants are paid as follows: Two cents for each name taken, ten cents for every farm, fifteen cents for every productive establishment of industry, two cents for every deceased person, and two per cent. of the whole amount for names enumerated for social statistics, and ten cents per mile for travel. It will be seen by the foregoing that the compensation allowed an assistant or enumerator, provided the district allotted to him shall not contain less than twenty thousand persons, will be about six hundred dollars or more. The Marshal is forbidden by law to accept any bribe or consideration for an appointment of assistant, and is liable to a fine of one thousand dollars should he be convicted of so doing. The law provides that each assistant, after qualifying, shall perform his duties by a personal visit to each dwelling house, and to each family in his subdivision, and shall ascertain by inquiries made of some member of each family, if any one can be found capable of giving the information, but if not, then of the agent of such family, the name of each member thereof, the age and place of birth of each, sex, color, etc.; and shall also visit personally the farms, mills, shops, mines, or other places, respecting which information is required, and when such information is obtained and entered into his blanks, then his memoranda shall be read to the person furnishing the facts for revision. There is a penalty for refusing to furnish the required information to the assistants. The act provides that every person more than twenty years of age, belonging to any family, in the case of the absence of the heads and other members of the family, shall be an agent of such family, and is required to render a true statement, of the information required, on pain of forfeiting $30, to be sued for and recovered in an action of debt by the assistant, to the use of the United States.

Hanover Branch Railroad.—From the report of Capt. A. W. Eichelberger, President of the Hanover Branch Railroad, to the stockholders, just published, we gather the following facts:

The earnings of the road for the fiscal year ending March 31, 1870, were $72,687 40; to which add receipts for working Gettysburg Railroad $12,463 20, and for working Littlestown Railroad $2,224 55, and the total is $87,325 21.

The operating expenses were $48,704 10, leaving a balance of $38,621 11. At the close of the previous fiscal year the balance in the treasury was $16,924 39—these two items making $55,546 47. Deduct what has been paid on dividends, $11,563 00, tax on dividends, $608 59, and subscription to Frederick and Pennsylvania Line Railroad, $16,000 00, in all $28,171 59, and the balance in the treasury is $26,473 88. Certainly a very handsome exhibit.

A Trap That Many of Our Store Keepers Have Fallen Into.—Buying their Queensware, Glassware and general supplies in the cities where the expenses are multiplied five fold. Wm. Blair & Son have an immense stock of goods, and are positively selling to the trade their whole line of goods at from five to 25 per cent. less than they can be brought from abroad. We know some of our store keepers are paying 20 cents per sack more than our prices for salt, 3 cents per lb. more for best coffee, 15 and 20 per cent. more for wares, 2 to 3 cts. per gallon more for coal oil, and in few instances getting the quality of goods we sell. Our advice is, buy near home in small quantities. Sell at lower prices and make more money. WM. BLAIR & SON, May 20. tf South End, Carlisle.

Frightful Developments!

At last the people have got the fact "through their hair," that dyes impregnated with acetate of lead and other metallic salts are MURDEROUS PREPARATIONS. When they see the metallic sediment at the bottom of the bottles, they know that the disgusting stuff is literally *thickened with poison*. They ask, therefore, for a HARMLESS VEGETABLE DYE, and find it pure and efficacious, in CRISTADORO'S EXCELSIOR HAIR DYE, offered under the sanction of Professor Chilton's guarantee that it contains "nothing deleterious."

CRISTADORO'S HAIR PRESERVATIVE as a dressing, acts like a charm on the hair after Dyeing. Try it. May 20, 1870. 1m

Scrofula Cured by Brandreth's Pills.

Brandreth's Pills penetrate the whole mass of blood, causing the expulsion of impurities. The body feels relieved from a single dose; what then may be expected from twenty? By continuing their use, the whole of the blood in time, becomes purified, and the body reconstructed from good material, and a new lease of life secured.

Sing Sing, March 25, 1868.

My Dear Sir: My daughter Alice, thirteen years old, has been completely cured of that horrible disease, Scrofula, which for years rendered life a torment; after all medicines and many physicians had been tried, and failed, I commenced giving her your pills. She took them almost every day for three months, constantly improving. She has now entirely recovered. Yours truly,

DANIEL LUTHER.

How to Cure Consumption.

THE PHILOSOPHY OF DR. SCHENCK'S GREAT MEDICINES. Will people never learn to know that a diseased liver and stomach necessarily disease the entire system? The plainest principles of common sense teach this, and yet there are hundreds who ridicule the idea, and continue in the course which almost inevitably brings them prematurely to the grave. Living as the majority of people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act; the liver fails to perform its functions, dyspepsia and its attendant evils follow, and still the sufferers persist in clinging to the thoroughly exploded ideas of the past. Dr. SCHENCK'S medicines are recommended to all such. They bring sure and certain relief wherever they are used as directed, and all that is necessary to establish their reputation with every ailing man or woman in the land is a fair and impartial trial of them. Let those who are sceptical on this point, and who have permitted interested persons to prejudice them against these now celebrated remedies for Consumption, discard their prejudices, and be governed by the principles of reason and common sense. If the system is disordered depend upon it, in nine cases out of ten the disorder will be found in the stomach and liver. To cleanse and invigorate the stomach and to stimulate the liver to healthy action, use SCHENCK'S MANDRAKE PILLS. The daily increasing demand for these pills is the best evidence of their value. Thousands upon thousands of boxes are sold daily. Why? Simply because they act promptly and efficiently. Invalids who may not find it convenient to call on Dr. SCHENCK in person are informed that full and complete directions for use accompany each package of the MANDRAKE PILLS, PULMONIC SYRUP AND SEAWEED TONIC. These medicines will cure consumption unless the lungs are so far gone that the patient is entirely beyond the reach of medical relief.

It may be asked by those who are not familiar with the virtues of these great remedies, "How do Dr. SCHENCK'S medicines effect their wonderful cures of consumption?" The answer is a simple one. They begin their work of restoration by bringing the stomach, liver and bowels into an active healthy condition. It is food that cures this formidable disease. SCHENCK'S MANDRAKE PILLS act on the liver and stomach, promoting healthy secretion, and removing the bile and slime which have resulted from the inactive or torpid condition of these organs, and of the system generally. This sluggish state of the body, and the consequent accumulation of the unhealthy substances named prevent the proper digestion of food, and, as a natural consequence creates disease, which results in prostration and finally in death.

SCHENCK'S PULMONIC SYRUP and SEAWEED TONIC, when taken regularly, mingle with the food, aid the digestive organs, make good rich blood, and as a natural consequence, give flesh and strength to the patient. Let the faculty say what it may, this is the only true cure for consumption. Experience has proved it beyond the shadow of a doubt, and thousands are to-day alive and well who a few years since were regarded as hopeless cases, but who were induced to try Dr. SCHENCK'S remedies, and were restored to permanent health by their use.

One of the first steps the physician should take with a consumptive patient is to invigorate the system. Now how is this to be done? Certainly not by giving medicines that exhaust and enervate—medicines that impair instead of improving the functions of the digestive organs. Doctor SCHENCK'S medicines cleanse the stomach and bowels of all substances which are calculated to irritate or weaken them. They create an appetite, promote healthful digestion, make good blood, and, as a consequence, they invigorate and strengthen the entire system, and more especially those parts which are diseased. If this cannot be done, then the case must be regarded as a hopeless one.

If the physician finds it impossible to make a PATIENT FEEL HUNGRY, if the diseased person cannot partake of good nourishing food and properly digest it, it is impossible that he can gain in flesh and strength; and it is equally impossible to bring a patient to this condition so long as the liver is burdened with diseased bile, and the stomach laden with unhealthy slime.

Almost the first request made to the physician by a consumptive patient is that he will prescribe medicines that will remove or allay the cough, night sweats and chills, which are the sure attendants on consumption. But this should not be done, as the cough is only an effort of nature to relieve itself, and the night sweats and chills are caused by the diseased lungs. The remedies ordinarily prescribed do more harm than good. They impair the functions of the stomach, impede healthy digestion, and aggravate rather than cure the disease.

There is, after all, nothing like facts with which to substantiate a position, and it is upon facts that Dr. SCHENCK relies. Nearly all who have taken his medicines in accordance with his directions have not only been cured of consumption, but, from the fact that these medicines act with wonderful power upon the digestive organs, patients thus cured speedily gain flesh. Cleansing the system of impurities, they lay the foundation for a solid, substantial structure. Restoring those organs to health, they create an appetite. The food is properly assimilated; the quantity of blood is not only increased, but is made rich and strong, and in the face of such a condition of the system all disease must be banished.

Full directions accompany each of the medicines, so that it is not absolutely necessary that patients should see Dr. SCHENCK personally, unless they desire to have their lungs examined. For this purpose he is at his principal office, No. 15 North SIXTH st., corner of Commerce, Philadelphia, every Saturday, from 9 A. M. until 3 P. M.

Advice is given without charge, but for a thorough examination with the Respirometer the charge is $5.

Price of the Pulmonic Syrup and Seaweed Tonic each, $1 50 per bottle, or $7 50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. April 14, 1870. 1y

COLLECTION OF TAXES.

THE following Acts of Assembly are published for general information:

AN ACT

To authorize the more prompt collection of taxes, in the county of York.

WHEREAS, The act, entitled "An Act imposing additional taxes, for state purposes," approved the thirteenth day of April, Anno Domini one thousand eight hundred and sixty-four, which said act, amongst other matters, provides that the auditor general shall add five per centum penalty in each county, on all state taxes remaining unpaid on the first day of August, of each year, has been found to have a salutary effect:

And whereas, It is equally desirable to have the county taxes, as well as the state taxes, required to be paid by said county, promptly collected, as well to meet the exigencies of the county, as to avoid the penalty which might, under said act, be imposed by the auditor general; therefore

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That hereafter it shall be lawful for the county commissioners, of the county of York, to add five per centum penalty to the state and county taxes of each and every taxable of said county, remaining unpaid on the fifteenth day of July, Anno Domini one thousand eight hundred and sixty-six, and of each year thereafter, and collect the same, in the same manner in which state and county taxes are now recovered and collected, in said county; and that all acts of assembly, inconsistent with the provisions of this act, be and the same are hereby repealed.

JAMES R. KELLY, Speaker of the House of Representatives.

DAVID FLEMING, Speaker of the Senate.

APPROVED—The eleventh day of April, Anno Domini one thousand eight hundred and sixty-six.

A. G. CURTIN.

AN ACT

To authorize the more prompt collection of taxes in the county of Adams.

TO PHYSICIANS.

New York, August 15th, 1868.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo, Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active) principle, leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopea, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence, I am, very respectfully, H. T. HELMBOLD, Chemist and Druggist of 16 Years' Experience.

[From the largest Manufacturing Chemists in the World.]

November 4, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN, Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU, for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil; in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The constitution, once affected with Organic Weakness, requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT OF BUCHU, in affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. Price $1 25 per bottle, or 6 bottles for $6 50. Delivered to any address. Describe the symptoms in all communications.

Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y.

NONE ARE GENUINE UNLESS DONE UP in steel-engraved wrapper, with fac-simile of my Chemical Warehouse, and signed H. T. HELMBOLD. May 13, 1870. 1y

FAHRNEY'S BLOOD SEARCHER, OR PANACEA.

THIS well known and popular medicine was formerly put up in packages by Dr. Fahrney, near Boonsboro', Md., but is now put up in a liquid form, and is highly commended for all Chronic or long standing Diseases. Hundreds of testimonials could be given, but the following will suffice:

"Dr. P. Fahrney's Blood Searcher or Panacea," is a medicine that we can recommend to those who are afflicted, having used it in our own family and furnished our friends with the article; we can, therefore, from experience say that it is a medicine possessing rare medicinal properties. Being a mild purgative, it is well to keep it always in the family where there are children or those subject to colds or other sickness. It is compounded from medicinal Roots, Leaves, Barks, Seeds, and Berries, which are said to be entirely free from poison. We are personally acquainted with the proprietor, who was our family Physician for several years, and we were at one time raised from a bed of affliction under his judicious treatment.—*Christian Family Companion.*

FAHRNEY'S BLOOD SEARCHER.—From our personal acquaintance with Dr. P. Fahrney, and from the reputation of the above named medicine in the community where he lives, we can cheerfully recommend it to a fair trial to all who may need a PANACEA for the physical maladies of mortality—until the great PANACEA for all diseases shall be found in the leaves of the tree of life.—*Prophetic Watchman.*

Farming and Housekeeping.

ROOTS OF ALSIKE CLOVER.

A writer inquires in the *Country Gentleman*: Has Alsike clover a tap root like red clover? Also, is it an annual?

This clover is a *perennial*, like the red clover; and the plants frequently send down a tap root as large as the tap root of the common red clover. It is generally understood that the red clover is for the bumble bee, and the white for the honey bee. The Alsike affords rich pasture for both; the flower of he latter in form is like the white clover. The seeds are in miniature peapods, or glumes, 2 to 4 in each, same as the white, and about the same size, but color of the red clover seed. The white clover is a trailing plant, striking roots at every joint, and throwing up its flower stems from the vine on the ground. The Alsike is erect and branching like the red, throwing out its flower stalk at every branch, and is in bloom early and late, the lower heads being ripe while fresh blooms are opening at the top, thus affording a longer season for accumulation of the sweetest of sweets. The flower partakes of the color of the white and red, being a very delicate pink or rose, and the root, in loamy soils, penetrates to the depth of 18 or 20 inches, and is a "tap root" like that of the red; hence it may be inferred it is equally as valuable for enriching the soil. For hay, when grown with timothy (as it always should be for pasture and meadows,) it is much superior to the common red clover, as it is not as coarse, and is more prolific of flowers and seed. The seed being so very small (not more than ¼ or ⅓ the size of red clover seed,) will not cost more to the acre than red clover—3 to 4 pounds is sufficient to seed an acre, with the usual quantity of timothy, if properly distributed. Yet, because the price—50 to 60 cts. per lb.—is so much above ordinary clover seed, we are apt to class it among the new and untried high-priced potatoes, oats, strawberries, &c., and hold back until the seed shall be more plenty, and at what we deem reasonable prices.

SALTING MILCH COWS.

William Egger, a Swiss dairyman of experience, states the method practiced in Switzerland by the best stock keepers in salting stock. He says cows should be salted early every morning, and if they are fed in the stable the salt should be given before foddering. Salting in this way improves their appetite; they drink with more regularity, are kept in better health, and give more milk than when salted in the usual way as practiced by dairymen in America. He thinks it very injurious to salt milch cows only once or twice a week, as they will lick too much for the day. To have stock to do well, they must be fed with regularity, every day alike, and never given too much of any thing at one time.

He says, throwing a little salt before the cows in the morning, is much better than allowing them to have free access to it during the day or at all times, as they choose to take it; because, it is not taken with regularity, which has a very important influence in lessening the average yield of milk. Cows, he says, should never be salted after taking water, and then have no chance to drink for hours, as the irritation, on account of thirst, will of itself depreciate the quality of milk and lessen the quantity. These facts he says he learned from one of the best and most successful stock keepers in Switzerland, and has found, by repeated experiments in his own practice, to be the best course to be adopted by dairymen in salting cows, in order to get the most milk, and, at the same time, keep them in good health.

JOHN BRIGHT was lately dining with a citizen of Manchester who is an enthusiastic admirer of the United States. "I would like," said the host, "to come back fifty years after my death to see what a fine country America had become." "I believe you would be glad of any excuse to come back," said Mr. Bright, with a grim smile upon his face.

NOT ON IT.—A Pennsylvania editor rejects an advertisement sent him by an Indiana lawyer on the condition that he should take his pay in divorces; saying, however, that he does so because he is a bachelor, and the proposition is "scandalously premature."

WHEN the women of modern times ask for "rights" they have reason on their side; but the rights are wrongly stated. A woman's best right is the right to a natural protector, and that would carry the rest along with it.

A NEWSPAPER published in the regions of Lakes Memphremagog and Winnepesaukee says that "fish in Lake Holleyhunkemunk, Me., are said to be superior to those of either Lake Weeleyobacook or Mooselookmeguntic. Those of Chaubungogungamaug were very fine, but they all got choked to death trying to tell where they lived."

Ayer's HAIR VIGOR,

For Restoring GRAY HAIR to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

BE WISE

WHILE wisdom will benefit you; be not always controlled by your incredulity. Hundreds have sought relief from the horrors of Dyspepsia through the medium of DEMUTH'S ANTI-DYSPEPTIC STOMACH BITTERS and found it. Why should you suffer when this admirable stomachic has cured many similar cases—why do you doubt, while others believe and are cured? Delay in this matter is both dangerous and unprofitable, your health, happiness, and business suffers, while constant neglect is frequently followed by serious and uncontrollable results. DEMUTH'S BITTERS are equally useful in the numerous difficulties *attending* Indigestion; as BILIOUSNESS, CONSTIPATION, &c., while for FEVER and AGUE and other disorders proceeding from MIASMATA, it is the only reliable preventive and remedy known.

MOTHERS! Mrs. Read's Infant Relief cures Summer Complaint, Diarrhea, Colic, &c., and is indispensable in the nursery during the teething period; it relieves pain, allays inflammation, regulates the bowels, and promotes natural sleep.

IMPROVEMENT IN

SAWING MACHINES.

THE undersigned has obtained a patent from the United States for an IMPROVEMENT IN SAWING MACHINES, to which he desires to draw public attention. It is designed for the sawing of cord wood, cutting into three pieces at one operation. The machine is turned by hand, and one man can easily cut six cords of wood in a day with it. But little power is required, any boy being able to turn it. Added to these advantages, the machine is strong and durable, and not likely to get out of order. Nothing more serviceable in its way has yet been introduced.

FORNEY'S

Horse & Cattle Powder.

This Preparation has become a great favorite with the people of Adams county—will thoroughly reinvigorate broken down and low spirited horses, by strengthening and cleansing the stomach and intestines. It is a sure preventive of all diseases. Its use improves the wind, increases the appetite, gives a smooth and glossy skin, and transforms the skeleton into a fine looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk and makes the Butter firm and sweet. In fattening Cattle it gives them an appetite, loosens their hides and makes them thrive much faster.

In all diseases of swine this article acts as a specific; by putting from a quarter to half a paper in a barrel of swill, the disease will be eradicated or entirely prevented. If given in time a certain preventive for Cholera. Price 10 cents per pound paper; 3 for $1.

THE GREAT

Medical Discovery!

DR. WALKER'S

CALIFORNIA VINEGAR BITTERS.

MORE THAN 500,000 PERSONS bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

They are a gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion, or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters have no equal.

Send for a Circular.

THEY ARE NOT A VILE FANCY DRINK, Made of POOR RUM, WHISKY, PROOF SPIRITS, AND REFUSE LIQUORS, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true medicine, made from the native Roots and Herbs of California, FREE FROM ALCOHOLIC STIMULANTS.—They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions, and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For INFLAMMATORY and CHRONIC RHEUMATISM, and GOUT, DYSPEPSIA, or INDIGESTION, BILIOUS, REMITTENT, AND INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed or sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the systems of so many thousands, are effectually destroyed and removed.

In Bilious, Remittent and Intermittent Fevers, these Bitters have no equal. For full directions read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

THE HOWE SEWING MACHINE!

Proof Positive of its Excellence over all others.

CERTIFICATES FROM PERSONS NOW USING THE HOWE.

ADAMS CO., FREEDOM TWP., Jan. 4, 1870.

I, the undersigned, purchased a Wheeler & Wilson Sewing Machine. After using it a few weeks I found it not to be as represented. I notified the parties I purchased from, and they could not make it work successfully, and refused to repossess themselves of the machine and refund my obligations. I then disposed of it and purchased a Howe, which has given perfect satisfaction.

ABRAHAM WAYBRIGHT.

SHIPPENSBURG, Oct. 9, 1869.

For over one year I had in use in my family one of the Wheeler & Wilson Sewing Machines; it was not equal to the range of work I often had on hand. I then disposed of it and purchased one of the Howe Family Sewing Machines; it works delightful in all particulars and has never failed to render good work and entire satisfaction in all kinds of use, from the finest to the heaviest material. I feel free to recommend the Howe to all who wish to purchase a perfect family machine.

MRS. WATSON CRAIG.

SHIPPENSBURG, Oct. 9, 1869.

I have used the Howe Family Sewing Machine for more than two years and unhesitatingly pronounce it a superior machine. We have tested it upon the finest fabric to the heaviest material. Its simple construction and the great range of work it is able to perform, is a sufficient recommendation to all who wish a first-class machine. We previously had a Wheeler & Wilson Sewing Machine, had it in use for over one year, sold it and bought the Howe Machine, which in my judgment is superior to the Wheeler & Wilson as a family machine.

MRS. WILLIAM LYNN.

SHIPPENSBURG, Aug. 16, 1869.

Having used a Wheeler & Wilson Sewing Machine for more than a year, I found that it would not do the range of work I as a seamstress had occasion to do; I sold it and bought a Howe Family Sewing Machine which does all the different kinds of work satisfactory, and would recommend it to all as a No. 1 Sewing Machine.

MRS. PRISCILLA E. BOHER.

SHIPPENSBURG, Aug. 16, 1869.

I have used a Wheeler & Wilson Sewing Machine for over a year; not proving satisfactory nor being able to do the range of work for family purposes, I sold it and bought a Howe Family Sewing Machine, which I have been using for some time, and take pleasure in recommending it as a superior Family Machine. For its simplicity and great range of work it cannot be excelled.

MRS. JOHNSON SNODDY.

SHIPPENSBURG, Aug. 16, 1869.

I have used a Wheeler & Wilson Sewing Machine for over a year; I sold it and bought a Howe Family Sewing Machine which has been used for some time, and take pleasure in recommending it as a good Family Machine. It can do a great range of work and is simple in its construction.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A LAXATIVE MEDICINE.

PERHAPS no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill.* The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS OF APPETITE, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, BILIOUS COLIC and BILIOUS FEVERS, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
